SOFT SKILLS

Communication

Teamwork

Problem-Solving

Leadership

Creativity

Decision Making

Adaptability

About me

Embarking on my first year BTech journey in Information Technology with a passion for innovation and problem-solving. I have already tackled an e-commerce website project and am skilled in Java, C/C++, Python, JavaScript, HTML, CSS, and Data Structures & Algorithms. With strong leadership potential, creativity, effective communication, and a knack for teamwork, I am eager to contribute fresh perspectives and learn from dynamic tech environments.

Projects

● E-commerce website

Designed and developed a dynamic e-commerce platform specifically tailored for hardware appliances. The project leveraged a combination of front-end technologies (HTML, CSS, JavaScript) and back-end technologies (PHP, MySQL) to deliver a comprehensive and user-friendly shopping experience.

● Youtube clone

Designed and developed a YouTube clone to replicate the core functionalities and user experience of the popular video-sharing platform. This project focuses on creating a responsive and visually appealing interface using HTML and CSS, ensuring seamless accessibility across various devices and browsers.

● Portfolio website

Designed and developed a modern, visually captivating portfolio website using HTML, CSS, JavaScript, and Bootstrap. The website features an advanced front-end design with responsive layouts and interactive elements, ensuring seamless accessibility across various devices and browsers.

Hard skills

- C
- JavaScript
- HTML
- CSS
- Python
- PHP
- OOPS
- Web Development
- Editing
- UI Design - Figma
- Database management
